

Alex Morgan

Senior Software Engineer | Distributed Systems | Cloud Architecture | AI■Ready Systems
alex.morgan@email.com • linkedin.com/in/alexmorgan • github.com/alexmorgan • Remote

Professional Experience

Senior Software Engineer – Global Cloud Systems (2019 – Present)

- Architected scalable microservice platforms serving millions of users across distributed cloud environments.
- Designed high performance APIs in Python and Go, reducing response latency by 45%.
- Led migration of legacy monolith systems into containerized Kubernetes infrastructure.
- Implemented CI/CD pipelines improving deployment frequency by 60%.
- Mentored engineering teams and established modern software architecture standards.

Software Engineer – Digital Platforms Inc (2014 – 2019)

- Developed enterprise web applications using Python, Django, and React.
- Built high availability backend services processing over 5M transactions daily.
- Implemented event driven systems using Kafka and Redis streams.
- Improved database performance by optimizing PostgreSQL queries and indexing.

Software Developer – Tech Innovations Ltd (2010 – 2014)

- Built backend services and internal tools used across multiple engineering teams.
- Implemented RESTful APIs and authentication systems with OAuth2 and JWT.
- Collaborated with product teams to design scalable application architectures.

Technical Skills

- Languages: Python, Go, JavaScript, TypeScript
- Frameworks: Django, FastAPI, Node.js, React
- Cloud & DevOps: AWS, Docker, Kubernetes, Terraform, CI/CD
- Databases: PostgreSQL, Redis, MongoDB
- Architecture: Microservices, Distributed Systems, Event■Driven Design

Education

BSc Computer Science – University of Technology

Certifications

- AWS Certified Solutions Architect
- Certified Kubernetes Administrator
- Advanced System Design

Achievements

- Designed large scale distributed systems handling millions of daily requests.
- Led engineering teams delivering mission critical software platforms.
- Recognized for innovation in scalable cloud architectures.
